

500 SECTION - TESTS

501 ORDER OF TESTS

All Standard tests are to be taken in numerical order. Competitive tests (obtained before 2017) will make the skater eligible to take the standard test required for the next grade (e.g. Skaters holding the Junior Competitive test may take the Inter-Gold test in that discipline whether or not they hold Silver)

502 GENERAL REQUIREMENTS

502.1 Test fees will be set by the Board each year, and will include the cost of a medal and/or certificate. The General Secretary will supply Clubs with a current list of fees. All costs incurred in the taking of any test will be the responsibility of the Club and/or skater concerned and shall not be the responsibility of the Association.

502.2 All candidates for tests conducted under the rules of the Association must be members in good standing with an affiliated Club and hold a current NZIFSA T/C Registration Number.

502.3 Applications (with fees) for tests are to be made by the candidates to their Club Secretary/ Test Competition Secretary no later than twenty-one days prior to the proposed test date or less at the discretion of the Club Test/Competition Secretary. Application forms for tests must be signed by a Level 2, 3, or 4 NZIFSA accredited coach, as well as a parent or caregiver (or skater if 18+) and their Home Club Secretary / Test Competition Secretary. Apprentice Level 2 coaches must have the test form co-signed by their mentor.

502.4 It is the responsibility of the Club Secretary/Test Coordinator or representative to arrange the ice time for the tests and advise the NZIFSA Test / Competition Secretary or representative who shall arrange the Judges and a Referee, who may be one of the Judges. Clubs may find their own judges, however, the NZIFSA T/C Secretary must be notified of all scheduled test sessions and the judges they are proposing to use so that these can be approved. Failure to comply with Rule 502.4 could result in test(s) being considered invalid.

502.5 On completion of the tests it shall be the responsibility of the Referee to collect all Judges' sheets (including passes and failures) and hand these to the Club Secretary/Test Coordinator or representative for completion of a test summary form to be sent within seven days to the NZIFSA Test/Competition Secretary. The skater and/or their Coach (named on the test form) has the right to request a copy of the judges' sheets for that skater from the club TC Secretary. The request must be made within 10 days following the test.

Payment shall be made to the skater's home club and then Clubs will be invoiced for the test fees by the NZIFSA.

502.6 Additional tests may be taken (time permitting) at the discretion of the Referee provided the completed test application and appropriate fees have been lodged with the Club Secretary/Test Coordinator or representative.

502.7 A candidate failing a test must wait for three weeks before taking the test again except that in extenuating circumstances, the NZIFSA Test/ Competition Secretary may set a date less than three weeks.

502.8 A candidate not appearing at the appointed time for their test must send their reason for not appearing in writing to the NZIFSA Test/Competition Secretary within seven days after the test date. Failure to supply a satisfactory explanation to the NZIFSA

Test/Competition Secretary will necessitate the reapplication for the test plus another test fee.

- 502.9 Any withdrawals from a test day (for other than medical or bereavement reasons or exceptional circumstances) must be made a minimum of 7 days prior to the test date. Failure to comply will necessitate the reapplication for the test plus another test fee.
- 502.10 Only test officials, candidates for tests and NZIFSA accredited coaches may be rinkside or in the marshalling area during tests. Apprentice Level 2 coaches may be rinkside provided that they are under the supervision of their mentor.
- 502.11 As an alternative to taking tests at a dedicated test session, skaters may apply to the NZIFSA TC Secretary to have a Free Skating, Pair Skating, Pattern Dance or Free Dance Test credited to them where they have achieved the requirements for that test in the course of an NZIFSA sanctioned competition (as defined in Rule 201), provided that said competition occurred after 1 January 2021 and had a minimum of two judges and two technical panel officials. Such application must be received within one week of publication of results. Where more than two judges are on panel, a draw will be conducted by the NZIFSA TC Secretary (or nominated representative) after the conclusion of the competition to determine which two judges' marks will be used. Subject to the TC Secretary verifying that the competition protocol provides evidence that the test level has been attained, and that the skater's club has received payment of the requisite test fee, the corresponding test shall be awarded.
- 502.12 Warm up times
A warm up period of six minutes in duration must be provided prior to all tests (except Pattern Dance tests, for which the warm up duration is three minutes per dance).

503 CONDITIONS OF ICE AND MUSIC

- 503.1 The Referee may call off any test where the condition of the ice or music in their opinion is not satisfactory.
- 503.2 The Referee may stop any test due to rinkside interference or distractions to skaters or judges. Restart point at the discretion of the Referee.
- 503.3 The ice surface will be clear of any distractions other than the skater or skaters taking their test.
- 503.4 An adequate sound system will be used to replay any or all music necessary for the appropriate tests.

504 WHOLE TEST ON SAME DAY

In all cases the whole test must be skated on the same day with the same panel of Judges except for Pattern Dance tests.

505 RE-SKATES

- 505.1 Free Skating, Pairs, Stroking and Dance - A test which is complete in itself may be re-skated only where external causes interfere. All the Judges must mark the re-skated test as re-skated without reference to the original skating.
- 505.2 Elements in isolation – in the event of a failure during the test and at the Judges' discretion the following re-skates will be permitted:
- Tests 0, 1, 2 and 3 for Free skating and Pairs, two re-skates are permitted. Tests 0, 1, 2, and 3 for Pattern Dance, one re-skate is permitted per dance.
 - Tests 4 and above for Free skating and Pairs, three re-skates are permitted. Tests 4 and above for Pattern Dance, two re-skates are permitted per dance.

- Free Dance Tests 1 to 4, one re-skate is permitted. Free Dance Tests 5 & 6, two re-skates are permitted.

The re-skates may comprise the same or different elements. Any elements receiving a GOE of -5 must be re-skated first before other elements may be re-skated (these count towards the total number of re-skates permitted). Elements in isolation must be re-skated immediately upon request, without practice. Required elements that have not been performed during the test will be given a -5 GOE and accordingly must be re-skated first. If the overall minimum passing GOE has been obtained, no re-skates are required, even if one or more elements has received a -5 GOE.

- 505.3 **Stroking Tests** – In the event of failure, one element may be re-skated once at the discretion of the Judges.

506 JUDGING OF TESTS

- 506.1 Marking must be in accordance with the rules applying to the particular level of skating and any particular rules set out in the test requirements. The closed marking system shall be used for all tests.
- 506.2 The NZIFSA Test/Competition Secretary must approve the judges for all tests. Two judges (not more), each holding the appropriate test judging grading, must be appointed for all tests except as follows; one judge can be used for Elementary tests providing that they are graded with a test level of Bronze or higher, Judges that are graded for Gold or higher test level for that discipline may single panel judge tests up to and including Bronze.
- 506.3 The candidate must satisfy each Judge appointed for the test.
- 506.4 A Judge or Referee may not officiate at a test where any of the following circumstances prevail:
- a) When they are closely related (defined as husband, wife, de facto partner, mother, father, son, daughter, sister and brother) to the candidate.
 - b) When they have been a skating partner or a team member of the candidate during the past 12 months in a competition or test.
 - c) When they are closely related to either:
 - i) a coach of the candidate or
 - ii) any person who has been a coach of the candidate during the preceding twelve months.
 - d) When due to extenuating circumstances, a Judge or Referee is required to officiate contrary to Rule 506.4, prior approval must be sought from and given in writing by the Officials Director or nominated representative before the test can proceed.
- 506.5 Judges may not review a skater's performance in person/via video within a period of three weeks prior to judging that skater for an NZIFSA Test. NZIFSA sanctioned competitions, tests and feedback sessions for monitoring purposes are exceptions to this rule. All skating participants in such events have the right to receive feedback from the panel of officials with respect to that event.

507 TEST CROSS CREDITS

- 507.1 Skaters who move permanently to New Zealand, or hold New Zealand citizenship, or are a Pairs or Ice Dance partner of a New Zealand Citizen, and have passed tests of an overseas ISU Member country may be exempted from sitting lower level NZIFSA tests as follows provided they submit proof of test passes to the NZIFSA (with elements achieved) and proof of competition level from their previous country.

- a) Skaters at Basic Novice to Senior level will be granted a cross-credit for the corresponding Free Skate/Stroking/Pairs/Ice Dance test required to enter the respective grade or at the level achieved in their respective country;
 - b) Skaters below Basic Novice level shall start at no higher than the Preliminary level test.
 - c) Skaters from overseas, or New Zealand skaters who take tests of another Member Federation, will only have their cross credits considered once.
- 507.2 Skaters who move permanently to New Zealand, hold New Zealand Citizenship, or are a Pairs or Ice Dance partner of a New Zealand Citizen, and have previously qualified for an ISU Championship (including meeting the required TES), may request credit for the corresponding NZIFSA test(s) required to enter the respective grade. Evidence of qualification must be provided, however, participation in the ISU Championship is not a requirement.

508 REQUIREMENTS FOR STROKING TESTS

508.1 GENERAL REQUIREMENTS

The Stroking Tests are basic skating moves skated with or without music as an optional choice.

The terms and judging standards applied are as for basic skating.

The elements in the Stroking Tests shall be skated in the order as set forth in the schedule of tests.

Stroking turns must be judged in accordance with the criteria set forth in the corresponding Test Rules.

Stroking must be commenced from a standing, stationary position with a minimum number of introductory steps.

If a skater starts a move on the wrong foot or skates a move other than that prescribed, the Referee must draw attention to the mistake as soon as possible. The mistake must be treated as a false start.

Such fresh start must be allowed only once.

Skaters shall select the area on the ice surface for the Stroking Test, directed by the Referee.

508.2 BASIC RULES FOR STROKING

An effortless, flowing and graceful execution should be achieved. Within the limits of the following rules, complete freedom is allowed to the skater.

- a) The head should be carried in an upright position, relaxed and naturally held
- b) The upper body should be upright but not stiff
- c) The arms should be held gracefully
- d) The free leg should be extended with the toe pointed

The steps must be skated in accordance with the diagrams and descriptions. The number of steps must be skated as prescribed. Subject to a general conformity with the basic requirements, complete freedom is allowed to the skater with respect to arm and free leg positions.

Stroking must be skated with good edges, control, flow, extension, carriage and rhythm. An even speed and flow should be maintained throughout. Maximum utilisation of the ice surface is desirable. Ice coverage must not be obtained by the use of flat or shallow edges. Music may be used at all levels and is a requirement for Gold Star Stroking exercises.

508.3 **MARKING**

Stroking will be judged by awarding a mark out of five for each element. The marks will be awarded as follows:

1. Well below the standard.
2. Below the standard.
3. Meets the standard.
4. Above the standard.
5. Well above the standard.

In determining this result consideration will be given to:

- a) Accuracy – the correct start, steps and adherence to the general pattern
- b) Edge Quality – characterised by a stable arc and controlled body rotation, the edge ideally without subcurves or wobbles, initiated by placing the body and blade on an angle to the surface of the ice and stepping on the required edge. This edge and arc will ideally commence immediately at the point where the skater takes the ice and travels uninterrupted until a required transition takes place
- c) Extension – the controlled stretching of the free leg complimented by an upright body posture. The height of the extension is determined by the type of movement being executed as is the extension of the upper body. The final extended position should always be attained in a controlled fashion
- d) Quickness – quickness refers to foot speed. It is the precise, rapid and crisp execution of turns, change of edge and transitions, usually in a brisk and continuous cadence. Refinements to acknowledge include quick movement that is quiet, fluid and continuous without disturbing the proper and erect carriage of the upper body and without interrupting the established rhythm.
- e) Power – power is obvious and rapid acceleration, often from a standstill position, achieved by a forceful, gripping pressure exerted by the skating leg and skate against the surface of the ice. Power includes maintaining or increasing speed while executing various skating elements. Power is relative to the size of the skater but can be attained with proper stroking technique.
- f) Any other requirements, as detailed for each exercise in the NZIFSA Stroking Skills Manual 2016 or any updates thereof.

A skater must meet the overall passing score for the test (as in Rule 509) in order to pass. In addition, if more than one exercise receives a mark of two or below, or any exercise receives a mark of one, the skater will fail the test.

However, a partner who has previously passed the test is not affected by failure in the test being tried where he or she is acting as a partner.
- 516.5 In cases where the partner is not sitting the test, after the candidate has skated the test dances with the partner, the Referee may request the candidate to solo skate any of the dances attempted (or part thereof).
- 516.6 Skaters may take individual dances as part tests. This does not preclude a candidate from attempting an entire test at a test day. Those dances that are passed shall be credited towards the completion of the test and need not be subsequently re-skated when completing that test. Any dances failed may be re-skated after a three week waiting period. The full NZIFSA test fee shall apply to a part test or re-skate.
- 516.7 Skaters may choose to test all of the dances in a level. If skaters pass all of the dances on a level, they will be awarded that level with Merit.
